

How do you spend your time?

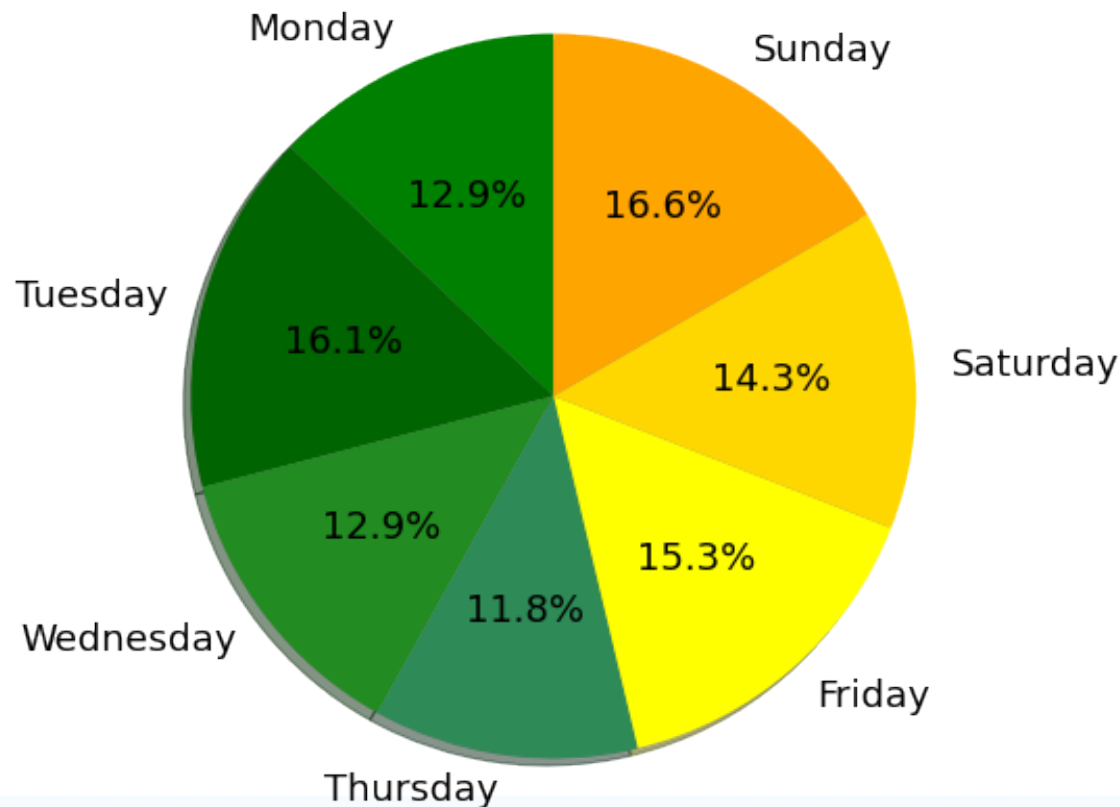

The bar chart shows that **sleeping** is the most common thing people do in their daily life, followed by **paid work** on both bath students and Europe people. We have **education, lectures** and do **courseworks** more frequently and spend a lot more time on **reading** whereas Europe people using **devices** and **leisure** more than us.

The pie chart shows bath students do their coursework on **Monday to Thursday**, then **Friday to Sunday**.

If we see each day of the week separately, we can find out that people tend to do their coursework on **Sundays, Tuesdays** and **Fridays**.

When do you usually do coursework?

In conclusion, Bath students are very dedicated students. We spend most of our time working (e.g. coursework, paid work, reading and education.) while others spend more time travelling and leisure.
